Deputy Chief Data and Analytics Officer – Statistics
Director, Statistics of Income (SOI)

Overview

The 2024 edition of Publication 6149, *Calendar Year Return Projections by State: 2024–2031*, provides state-level forecasts of the number of tax returns expected to be filed in Calendar Years (CYs) 2024 to 2031, by major form type and filing medium. The Internal Revenue Service (IRS) uses these forecasts primarily for resource planning and analysis. The Statistics of Income (SOI) staff prepare these forecasts annually to incorporate changes in filing patterns, legislative requirements, and IRS administrative processes. Legislative or administrative initiatives under consideration are generally not included in the projections due to the uncertain nature of their eventual outcome.

Data Sources and Projections Methodology

Data Sources

The reported actual number of returns filed in CY 2023 for each filing category is based on returns processed and recorded in the IRS Master Files. With few exceptions, these data are from the same Master File reporting systems as those used for the IRS Data Book (Publication 55B). However, IRS Master File counts were not available in some instances. In those cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located at the IRS processing campuses.

General Projections Methodology

The projections presented in this publication are based on various statistical models that capture and extrapolate historical filing trends by unique form types and filing mediums. Most models used time-series extrapolation methods. However, the projections for some return types are based on regression models that used the economic and demographic variables provided by IHS Markit as key input factors. Additionally, the filing pattern for a comparable return type was applied where historical data were limited or nonexistent, such as for new e-file products.

Summary of Significant Revisions and Trends

A summary of major trends and other significant factors embedded in the return forecasts for this edition of Publication 6149 is noted below.

Digital Intake Scanning Initiative and Paperless Processing Initiative

Since the Inflation Reduction Act passed into law in August 2022, the IRS has made significant progress in adopting new digitalization technology. On March 8, 2023, the IRS announced a new Digital Intake Initiative to scan paper returns of select form types, including Forms 940, 941, and 1040, as well as select extension forms. As of October 2024, the IRS processed over 430,000 scanned paper Form 940 returns, almost 1.3 million Form 941 scanned returns, around 318,000 Form 1040 scanned returns, and approximately 9,000 scanned paper extension returns. This digitalization effort will expand to include scanning of other form types.

In August 2023, the IRS announced the Paperless Processing Initiative, which aims to digitally process all paper-filed tax returns. The projections provided in the 2024 update of Publication 6149 do not account for the Digital Intake Initiative and the Paperless Processing Initiative. As more data and program information become available, future updates will establish a methodology for estimating scanned paper volumes.

Impact of the Taxpayer First Act

The Taxpayer First Act (TFA), enacted on July 1, 2019, made filing electronically a more widespread practice for business taxpayers. Two TFA provisions directly affect the forecasts provided in this publication. First, the TFA lowered the required electronic filing thresholds for corporations and partnerships starting in CY 2021. Second, the TFA made electronic filing mandatory for tax-exempt organizations (Form 990 series) and political organizations (Form 8872) starting in CY 2021. Both provisions have increased the number of electronic filings for the impacted forms, which will ultimately either decrease or eliminate the amount of paper filings.

Electronic Filing Trends

In CY 2023, the share of total electronic volumes for individual, tax-exempt organizations, and business returns, collectively, made up around 80.9% of the grand total filings. This percentage is expected to rise to around 83.0% in CY 2024, and then to steadily increase to about 90.2% by CY 2031.

In CY 2023, the estimated share of individual Form 1040 series returns filed electronically was 92.8%. Current forecasts project that this ratio will reach around 97.2% by CY 2031. Readers interested in a more detailed discussion of trends and issues in individual income tax return filings should refer to the 2024 update of the Publication 6187, *Calendar Year Projections of Individual Returns by Major Processing Categories*.

Accuracy of Prior Projections

The accuracy of prior projections is routinely assessed to measure the quality of our products and services. This section, along with Table 54, provides a brief analysis of prior projections.

Using 4 years of actual data, from 2020 through 2023, Table 54 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for approximating the overall reliability of our U.S. level return projections.

Table 54 presents two measures of projection accuracy: (1) the mean absolute percent error (MAPE); and (2) the number of overprojections. The MAPE is computed as the average percentage projection error for the 4-year period, regardless of whether the projections were over or under actual filings in each of the four projection cycles. The number of overprojections can show whether projections are consistently over- or underprojected. A value of “2” indicates balanced forecasts over the four cycles.

These two measures of projection accuracy are grouped by time horizon in Table 54. The time horizon is determined by the calendar year a forecast was made and the calendar year projected. For example, a forecast for 2021 made in 2018 would be part of the “3-years-ahead” time horizon.

Table 1. United States: Total Number of Returns Filed by Type of Return

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents," 88 Fed. Reg. 11754 (February 23, 2023).

**Forms 990-N and 8871 are all electronic.

***Form 8038-CP returns are included in the Paper Grand Total.

****The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

1. On March 8, 2023, the IRS announced a new Digital Intake initiative to scan popular paper forms, including Forms 1040, 940 and 941, beginning in 2023. In August 2023, the IRS announced the Paperless Processing initiative that aims to process all tax returns digitally by 2025. The projections provided in the 2024 update of Publication 6149 do not account for the Digital Intake initiative and the Paperless Processing initiative. Future Publication 6149 updates will consider how to reflect the scanned paper volumes, as more data and program information become available.

2. Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.

3. Detail may not add to subtotal/total due to rounding.

4. Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

1. Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.

2. Detail may not add to subtotal/total due to rounding.

3. Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.</

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

1. Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.

2. Detail may not add to subtotal/total due to rounding.

3. Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

1. Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.

2. Detail may not add to subtotal/total due to rounding.

3. Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

1. Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.

2. Detail may not add to subtotal/total due to rounding.

3. Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic Filing Requirements for Specified Returns and Other Documents," 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

1. Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
2. Detail may not add to subtotal/total due to rounding.
3. Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

SOURCE: Statistics of Income, 2024 Publication 6149.

N/A—Not applicable.

*These forms are all paper. Some will have an electronic filing option in the near future. See "Electronic-Filing Requirements for Specified Returns and Other Documents." 88 Fed. Reg. 11754 (February 23, 2023).

**Form 990-N is all electronic.

***The Paper Form 1040-X is not based on processed/closures inventory. Instead, sourcing for the paper individual amended return volume uses receipt inventory due to a stronger relationship with staffing and resource allocation needs. Starting in CY 2023, Submissions Processing began reporting Unassigned Global Inventory, resulting in a divergent actual. These adjustments to reporting have been incorporated into our future projections.

NOTES:

- Table does not contain non-Master File counts. Each of the forms listed under "Type of Return" is defined in the "Table Notes" of Publication 6149.
- Detail may not add to subtotal/total due to rounding.
- Projected volumes have been rounded to the nearest 100; therefore, values of 49 or fewer were rounded to 0. Additionally, actual volumes that are less than 10 have been rounded to the nearest 10.

* Some actuals shown in this table may differ from official counts reported elsewhere because they exclude certain return series that were only recently projected and whose accuracy cannot yet be evaluated.

SOURCE: Statistics of Income, 2024 Publication 6149.

Table Notes

- Detail may not add up to the totals due to rounding.
- Actual historical data presented in this publication have been rounded to the nearest 10, while projected volumes have been rounded to the nearest 100; therefore, values of four or fewer and 49 or fewer, respectively, were rounded to 0. However, some forms show zero filings because the data are associated either with selected areas only or recently established or eliminated filing options.
- Various return categories include line items to account for alternative methods of tax filing. However, due to space constraints most “paper only” breakouts were omitted in the state tables. The “paper only” components can be derived by subtracting the electronic counts from their respective return totals.
- Actual and forecasted return counts for the major categories are based on IRS Master File processing, as recorded in the electronic versions of the Report of Returns Posted to the IRS Master Files. The tax return counts presented in this document do not include non-Master File counts.
- Complete IRS Master File counts for CY 2023 were not available for Forms 8849 and 5558. IRS operating division staff members supplied these counts at the national level; some data were derived from secondary sources.

Tables 1–53

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents, Total.” The “Total Primary Returns” category is the sum of all forms shown in the tables, excluding “Supplemental Documents, Total.”
- “Individual Income Tax, Total” is the sum of paper and electronic Forms 1040, 1040-SR, 1040-NR, 1040-NR-EZ, 1040-PR, 1040-SS, and 1040-C.
- “Forms 1040 and 1040-SR, Total” includes both paper and electronic Forms 1040 and 1040-SR.
- The last category in the “Individual Income Tax, Total” section includes Form 1040-NR, Form 1040-PR, and Form 1040-SS. These forms are assigned to the “International” category.
- “Individual Estimated Tax, Form 1040-ES, Total” includes paper and electronic Form 1040-ES.
- “Fiduciary, Form 1041, Total” includes paper and electronic U.S. Income Tax Return for Estates and Trusts, Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the Estimated Income Tax for Estates and Trusts.
- “Partnership, Forms 1065/1065-B, Total” includes paper and electronic Forms 1065 and 1065-B.
- “Corporation Income Tax, Total” includes paper and electronic Forms 1120, 1120-C, 1120-F, 1120-FSC, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, 1120-S, and 1120-SF. Form 1120-POL volumes are reported separately under the forms for “Political Organizations.” Form 1120-IC-DISC is not included in this category.
- “Form 2553” is the Election by a Small Business Corporation (to file Form 1120-S).
- “Form 1066” is the U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return.
- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the U.S. Gift (and Generation-Skipping Transfer) Tax Return.

- “Employment, Total” includes paper and electronic Forms 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 944-PR, 944-SS, 945, and CT-1. Form CT-2 returns are excluded.
- “Form 1042” is the Annual Withholding Tax Return for U.S. Source Income of Foreign Persons. This form is assigned to the international area. It is sometimes considered an employment tax return, but it is listed separately in Publication 6149.
- “Exempt Organizations, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-N (only available electronically), 990-PF (paper and electronic), 990-T (paper and electronic), 4720 (paper and electronic), and 5227 (paper and electronic starting in 2023). Beginning in CY 2022, the Form 990 series must be filed electronically. Temporary waivers are available for small business filers.
